

## Drawer Box Assembly Instructions

Tools Needed: Carpenter's Glue, a small bristle paintbrush, rubber mallet, and a damp (not wet) rag.

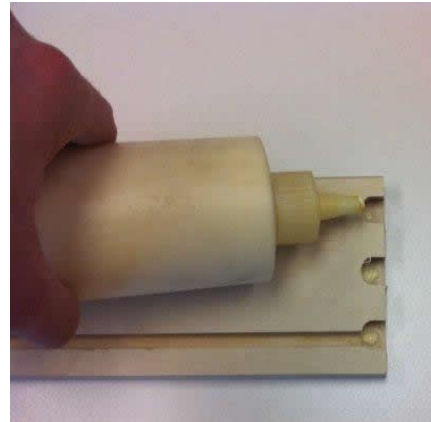

---

1.

Layout all pieces as shown above.

2.

Apply Glue to the current Dovetail pocket ready to be connected.

3.

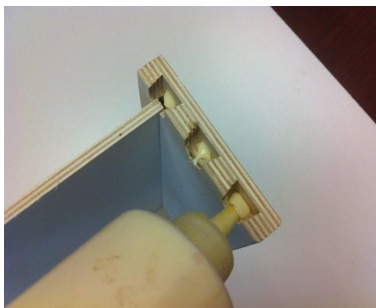

Use a rubber mallet to secure the drawer side. ( Normally a mallet is not needed)  
Remove any glue that appears from the joint.

4.

Slide in the drawer bottom.

5.

Add glue to the final Dovetail Pockets.

6.

Secure the remaining side.

---

Your drawer box is now ready to be installed.  
Follow any instructions provided by the slide manufacturer for install.
